Understanding the Legal Aspects of Dentistry

How to prevent most dental board complaints and legal lawsuits?
What is supervised neglect and how can it be easily prevented?
What legal measures should be taken when offering root canal therapies?
When should dental implants be presented to patients?
What is the standard of care when it comes to radiographic evaluations such as panoramic and Cone Beam CT-scans?

Presented By:
Charles Zahedi DDS, PhD
Currently, Faculty and Instructor, Constitutive & Regenerative Sciences, Department of Periodontics, School of Dentistry, UCLA
Previously, Full-Time Associate Professor, Department of Advanced Periodontics and Implant Surgery, School of Dentistry, Loma Linda University
